

## Float Wrap Pricing

Float Wraps are a unique option to display images in that the image appears to be floating on the wall. Create a modern display with a Float Wrap wall collage that comes ready to hang! Float Wraps are wrapped around masonite to create a thin wrap, backed with black paper and a black 3/4" thick gatorboard block that contains holes for hanging. Padding is inserted between the print and the masonite to provide added depth for an elegant look and feel.
