Location and Time of Ceremony:

Location and Time of Reception:

Can you describe what you envision for your wedding day photography?

Do you have images (i.e. from magazines or a friend's wedding) that may serve as examples?

Do you prefer more candid (documentary style) wedding shots or traditional (posed) shots?

What is the most important part of your wedding day that you would like captured?

Would you like candid "getting ready" shots? When and where will you be getting dressed for the wedding?

Will you be seeing each other before the ceremony?

Would you like to do the bulk of the group shots before the ceremony?

How many people are in your wedding party?

Wedding Photography

Would you like indoor and outdoor photos? Does your location allow for both?

Do you have a strong preference between color, B&W, modern antique, sepia, etc. prints?
All are available upon request.

Will you be doing anything special that you want photos of in the time between the ceremony and reception?

How late would you like us to stay at the reception?

Would you and your fiance like to schedule a portrait shoot before the wedding (engagement portrait)?

Any special family dynamics?

Any additional notes to be aware of on your wedding day?
